Dry Fruits

Cashew range

W180

Our premium W180 cashew nuts are prized for their large size and rich, buttery flavor. Perfect for indulging in as a snack or incorporating into your favorite recipes.

W240

With a slightly smaller size than the W180, our W240 cashew nuts offer a delightful crunch and a distinctively creamy texture. Ideal for adding a touch of luxury to both sweet and savory dishes.

W320

The versatile W320 cashew nuts are favored for their balanced size and flavor profile. Whether enjoyed on their own or used as a key ingredient in cooking, they never fail to impress with their freshness and quality.

W450

Our W450 cashew nuts boast a smaller size but pack a punch of flavor. Perfect for recipes requiring finely chopped or ground cashews, they lend a delightful nuttiness to a wide range of culinary creations.

Direct Sourcing by bypassing intermediaries, we offer competitive prices without compromising on quality, fostering transparency and trust throughout the supply chain.

Green Chilly

At our company, we offer a diverse range of cashew products to cater to various preferences. In addition to our selection of whole cashew nuts with the skin intact, we also provide options for skinned cashew or grilled variations.

Skinned Cashew or Grilled Options:

For those who prefer cashew nuts with the skin, we offer skinned cashew varieties. These nuts undergo a meticulous process to remove the outer Shell and keep the skin while retaining their natural flavor and nutritional benefits.

Our grilled cashew options provide a unique twist to the traditional cashew nut experience. Expertly roasted to perfection, these nuts boast a rich, smoky flavor that adds depth to your snacking or culinary creations.
